SECTION 4: First-aid measures	
4.1. Description of first aid measures	
First-aid measures general:	May cause harm to breast-fed children.IF exposed or concerned: Get medical advice/attention. Call a poison center/doctor/physician if you feel unwell.
First-aid measures after inhalation:	If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Immediately call a poison center or doctor/physician.
First-aid after skin contact:	IF ON SKIN: Wash with plenty of Water. Take off contaminated clothing and wash it before reuse. If skin irritation or rash occurs:Get medical advice/attention.
First-aid measures after eye contact:	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
First-aid measures after ingestion:	Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.
4.2. Most important symptoms and effects (acute and delayed)

Symptoms/effects after inhalation:	Fatal if inhaled. May cause respiratory irritation. May cause an
	allergy or asthma symptoms or breathing difficulties if inhaled.
Symptoms/effects after skin contact:	Causes skin irritation. Symptoms may include redness, drying,
	defatting and cracking of the skin. May cause an allergic skin
	reaction.
Symptoms/effects after eye contact:	Causes serious eye irritation. Symptoms may include discom
	fort or pain, excess blinking and tear production, with marked redness
	and swelling of the conjunctiva.
Symptoms/effects after ingestion:	May be harmful if swallowed. May cause gastrointestinal
	irritation, nausea, vomiting and diarrhea.
Chronic symptoms:	May cause damage to organs through prolonged or repeated exposure

4.3. Immediate medical attention and special treatment, if necessary

Symptoms may be delayed. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

SECTION 5: Fire-fighting measures	
5.1. Suitable (and unsuitable) extinguishing m	edia
Suitable extinguishing media:	Foam, powder, carbon dioxide (CO2), water spray.
Unsuitable extinguishing media:	None known
5.2. Specific hazards arising from the chemica	1
Fire hazard:	Extremely flammable aerosol. Products of combustion may include, and are not limited to: oxides of carbon.
Explosion hazard:	Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries. Vapors are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapors.
5.3. Special protective equipment and precaut	ions for fire-fighters
Firefighting instructions:	Move containers away from the fire area if this can be done without risk. Cool closed containers exposed to fire with water spray.
Protection during firefighting:	Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).
